

International Conference on Industrial Packaging

28 September 2023

“Presentation by Jana Ulmer, Caribbean Containers”

“Overview of Caribbean Containers, USA”

Good afternoon.

I am Yana Ulmer, Vice President of Caribbean Containers, Inc., which is located in Auburndale, FL, U.S.A.

I want to thank the members of the International Confederation of Container Reconditioners for allowing me to make a presentation to the group about my company.

We chose to become a Gold Sponsor of this great event because we believe so strongly in the industrial packaging industry, both manufacturers and reconditioners. ICCR has created a truly special event here in Ghent, Belgium and I hope that all of you are enjoying it as much as I am.

Caribbean Containers Largest manufacturer of tops and bottoms for both open head and tight head drums in the USA. In addition, my company supplies other drum accessories including rings, gaskets, bungs, caps and hardware to the

industry. In a real sense, we have positioned our company to be a one-stop shop for all parts and accessories needed by drum manufacturers and reconditioners.

For years, Caribbean Container has focused exclusively on the U.S. market and, I am pleased to say, we have had excellent success.

I made this trip to Belgium to announce that our company has made the decision to expand its operations to Europe. We believe there are wonderful opportunities for a company like ours in this part of the world and our goal is to be introduce all of you to our product line and assure you that our customer service is second to none.

Please stop by our booth in the lobby during morning coffee or one of the breaks. I look forward to meeting all of you during the event.

Thank you very much.
